=======================================
          OSSP PROGRAM 9
          Directory Navigation
=======================================

Type 'help' for commands.

shell9> pwd
/home/ramyasree/Skill
shell9> cd /tmp
Directory changed successfully.
shell9> prev
Directory changed successfully.
shell9> help

Available commands:
  pwd          - show current directory
  cd <dir>     - change directory
  cd           - change to home directory
  prev         - return to previous directory
  help         - display commands
  exit         - terminate program

shell9> pwd
/home/ramyasree/Skill
shell9> exit
Program 9 terminated.
ramyasree@DESKTOP-DP2O9U6:~/Skill$
